Reports

Rennae Petersen

- At the Mission Summit in New Ulm 29Sep we received a \$50 check for a new mission project. Solar Oven project was chosen. January 20, 2019, Marjorie Evans De Carpio, a representative of Solar Ovens, will come and give message on the ovens and even give a demonstration. Second step would be to go and make the ovens, over by Watertown SD on a farm. It would be only 6 to 8 people. March or May 2019 are dates for making the ovens. Third part would be have members accompany the ovens to Dominican Republic in July and show them how to use the ovens. We need to look at sustainability for the project, future youth mission trips? What does an oven cost? \$150 per oven.
 - Sandy Untiedt motioned to support the Solar Oven project for 2019 / Leanna Ginocchio 2nd - Motion passed
