Living Nativity

- Pastor Josh shared his ideas for the scenes for the Nativity, to give us some ideas on what we can do and materials that we would need.

 - Discussed to have 2 L brackets per 4x8 sheet
- Discussed having a “build” day Oct 6 @ 10A
 - Steve Simmons said that we could do painting in his heated shop
 - Will set up each scene and have each ready for teams to get them done.
 - Scene 1 - need at least 3 walls - look of brick for Ceasar and Guard
 - Scene 2 - Silhouette of Mary and Joseph walking away (Pastor said he could help get this done)
 - Scene 3 - Shepherds/kids area - 4 walls and straw bales
 - Scene 4 - Angel with bright lights - 1 wall as a back drop?

- Scene 5 - 2 walls look of rocks and Inn Keeper turning Mary and Joseph away
- Scene 6 - Angel again with bright lights - ?Smoke machine
- Scene 7 - Main Manger scene with wise man traveling to see the new born king - need 7 walls and straw bales
- When I got home and talked to Butch and he did not think that we would necessarily need to have 2 L brackets per each 4x8 piece, but to hinge the pieces together and then L brackets on each end and could even hinge the L brackets so everything would lay down and easy to transport.
- Will need at least the 2 generators

 - Jeff Buesing also has one
 - ?? Paul Thoof work again
- Will need a minimum of 7 spot lights, but 10 would be better
